

DANIYELLA

COUNTRY STYLE

Baby I've been nice – nearly all my life
I used to put my dreams aside to suit you right
You never heard me complain
But after all this time I changed my mind
This note I left for you is gonna say it plain

Honey, I've been good – just like you knew I would
You had yourself the perfect maid - let's get this straight
I never cost you a dime
So now I'm on my own – into the great unknown
As far as I'm concerned it's gonna work out fine

**I'm gonna live my life in Country Style – buy me a Pickup truck
I'm gonna drive fast – waste gas
Get my share of luck
I'll put my old boots on, sing my favourite song
Sleep beneath the stars
I'll give my soul a ride right down the road**

Here's a list I made – the rent's got to be paid
And it's really not that hard to mow the yard
You might have seen it on TV
You better fix the fence and if you should get tense
Just take that good advice you used to give to me!

CHORUS
